Subject: Re: BaP AO factsheet

EPA is preparing to release the final Integrated Risk Information System (IRIS) assessment of Benzo[a]pyrene (BaP). Benzo[a]pyrene is a five-ring polycyclic aromatic hydrocarbon that is released into the atmosphere as a component of smoke from industrial processes, vehicle exhaust, cigarettes, and through the burning of various materials (such as wood, coal, petroleum products, and biomass). The final assessment addresses cancer and non-cancer effects of benzo[a]pyrene from inhalation and oral exposure. This assessment updates the IRIS assessment of benzo[a]pyrene that was developed in 1987.

Thanks,
Megan

Adding Megan and Lou. Lou, do you have a desk statement for the BaP release?

Thanks,

Susan

Hi Nancy,

Just a reminder that ORD plans to release the IRIS assessment for benzo[a]pyrene tomorrow. Please let me know if you have any questions.

Thanks,

Susan

Hi Nancy,

See the attached fact sheet for next week's IRIS assessment release (benzo[a]pyrene). Please let me know if you have any questions.

Thanks,

Susan

Hi Kacee and Maureen,

Attached is an AO factsheet for the final posting of the benzo[a]pyrene IRIS assessment, currently scheduled to post Jan 19. I'm sure we'll mention the posting date tomorrow with Matt Fritz, but wanted you all to have it in advance in case questions come in from the AO to Tom or Bob. **Ex. 5 Deliberative Process (DP)** Let us know if you have any questions!

-Lou
